Just for you

Lab grown diamonds are the future of diamonds. It is made from natural element like a diamond that is mined from underground but without conflict and pollution. It offers better quality with less of the damage to the environment and cost.

The futuristic diamonds are more affordable than a mined diamond of the equal sizes and clarity. This gemstones are acknowledged by the world's most recognized Laboratory as real diamonds.

Stand firm on protecting the world and also your value.

The Pink sapphire

Our signature Pink sapphire on out jewellery represents wisdom. It is our wisdom which leads us to the creation of Abov, our knowledge in design and technology which produces revolutionary diamond jewellery for the future. Our creativity are not just excel in designing but manufacturing jewellery that rises above the ordinary.
